## PROJECTS

### Shay's Corner — [Live Link](#)

Personal site I used to learn how to deploy a static website and manage a remote server and attach a domain name to it.

Skills and Technologies Used/Learned:

- GNU/Linux
  - Vim
  - Nginx web server
  - ssh
- HTML5/CSS3
- Domain name
- Securing site with SSL (https)

### LOLComicGrabber — [Source Code](#)

Command line utility to download comic books for offline viewing off of the League of Legends site.

Skills and Technologies Used/Learned:

- Python
- Web Scraping
- File system management
- Parsing JSON

## EVENTS

### Owlhacks — 2020

Hackathon hosted by Temple University. Won most creative domain name competition. Participated in CTFs.

### Lockheed Martin CodeQuest — 2019

Competitive coding competition against schools around King of Prussia

### Lanternfly Hackathon — 2019

Hosted by PA Dept. of Agriculture to design a wireframe for an app to help fight against Lantern Flies

## In the past I've worked with:

- Python
- NodeJS
- C
- Golang
- HTML5/CSS3
- Java
- Kotlin
  - Android
- Swift
  - iOS 13
- GNU/Linux
  - Nginx
  - Ssh
- Git/[Github](#)
- Raspberry Pi
- Arduino

## EDUCATION

**Drexel University,**  
Philadelphia PA

September 2020 - Present

**North Penn High School,**  
Lansdale, PA
